The equipment used at Divine Health provides completely non-invasive methods for gaining valuable information about your body's vital functions. The primary objective of the screening is to disclose patterns of stress and provide feedback that will assist in developing a program to restore each system and meridian to balance.

- I understand that Divine Health does not provide medical diagnoses and that Divine Health staff may recommend further medical testing. If I suspect I need further medical intervention, I understand I should consult MY physician. I give my permission for the staff of Divine Health to evaluate me as they see fit. I understand in doing so that no one associated with Divine Health are becoming my primary care physician. I understand that Divine Health staff will give me information about myself and make recommendations based on screening protocols. I understand that the staff of Divine Health will not pass judgments on prescribed medications and it is the responsibility of my primary care physician to make any adjustments on prescribed medications. Any decision to follow through with the recommended program is my own decision and I hold Divine Health and its staff harmless.
- I understand that I am here to learn about natural health and better lifestyle practices and I will be offered information about food supplements and herbs as a guide to general health.
- I understand that I should continue to see any medical doctors I am currently under the care of, and that any prescribed medications should not be altered without first consulting the physician who recommended it.
- I fully understand that those who counsel me are not medical doctors, medical practitioners, licensed nutritionists, or licensed naturopaths. I am not here for any medical diagnostic purposes or treatment procedures.
- Information about traditional uses of supplementation that may create a healthy balance in the body may be discussed. This is not intended to be interpreted as a substitute for a licensed physician's treatment. Nothing said, done, typed, printed or reproduced by us is intended to diagnose, prescribe, treat, or take the place of a licensed physician.
- The intent is to provide educational information for the purpose of assisting you with the lifestyle changes necessary to regain and maintain an environment needed to support a well-balanced lifestyle.
- I am not on this visit, or any subsequent visit, acting as an agent for the federal, state, county, local law enforcement or news media on a mission of entrapment or investigation.
- I understand that all information and conversations will be kept confidential, and that information concerning myself can be released to another health professional only with my written consent
- I understand that the screening conducted at Divine Health will only identify energetic imbalances and does not diagnose any diseases in the body. The Balancing Item refers to the energetic signature needed to restore balance to the body. Balancing Items are defined differently from medical terms.
- I recognize that energetic and frequency screening is an unorthodox approach to balancing my health. Being of sound mind, I have chosen this screening to assist in balancing my health of my own free will and in exercise of my constitutional right for the attainment of life, liberty and the pursuit of happiness.
